

J-15H/T-SL

MODEL J-15H/T-SL DOUBLE SIDE
SLOTTED FLEX MOUNT \varnothing 40mm = SF7

MODEL J-15H/T-SL DOUBLE SIDE
SLOTTED FLEXMOUNT \varnothing 46mm = SF6

All dimensions are in mm with a tolerance of ± 0.1 unless otherwise specified

- Very High Performance Economical Encoder
- Low Profile 25.4mm Height & 38mm Diameter
- Thru-Bore (sizes up to 10mm) Up To 10 Pole Commutation
- Optional (for brushless motor control)
- Excellent replacement for other manufacturers modular encoders

Model	15H = Blind Bore / 15T = Through Bore
Channels	R = ABZ / Q = AB / A = A
Output	HV = Driver (10mA Source/Sink) without inverted channels HVLD = Driver (10mA Source/Sink) with inverted channels PP = Driver (50mA Source/Sink) without inverted channels PPLD/HTL = Driver (50mA Source/Sink) with inverted channels OC = Open Collector without inverted channels TTL/RS422 = Driver (10mA Source/Sink) with inverted channels at 5vdc
PPR	see ppr option below
Voltage	V1 = 5 VDC / V2 = 10-28 VDC / V3 = 5-28 VDC
Shaft Bore Size \varnothing d	6 = 6mm / 6.35 = 6.35mm / 8 = 8mm / 10 = 10mm
Mounting Options	SF6 = Double Side Slotted Flexmount 46mm SF7 = Double Side Slotted Flexmount 40mm
Commutation Signals	C4 = 4 Pole C6 = 6 Pole C8 = 8 Pole N = No Commutation
Protection	1 = IP50 / 2 = IP65 (For Blind Hollow Only)
Temperature	S = 0-70°C / H = 0-100°C
Cable Outlet	R = Radial
CE Certified	N = Standard / CE = CE Certified

Ordering Example – J-15H-SL-R-HVLD-1000-V1-6-SF6-N-1-S-R-N
